**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

It is noted that the following action is based on the application as filed on 7/7/03.

#### *Election/Restrictions*

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Applicant must elect **one** from the following:

embodiment of figure 4; or embodiment of figure 6; or rifles and shotguns (not shown).

Applicant must **also** elect **one** from of the following:

embodiment of Figure 7; or embodiment of Figure 8; or embodiment of Figure 9; or embodiment of Figure 10.

Applicant must **also** elect **one** from of the following where the gun owner elects to use his loaded gun for self defense by: ejecting the cartridge from the chamber; or by indexing the cylinder.

Applicant must **also** elect **one** from the following where the extension spring is: soldered; spot welded; adhesive bonded; or a high strength steel washer.

Applicant must **also** elect **one** from the following where the steel washer is: crimped; soldered; welded; or bonded.

Applicant must **also** elect **one** from the following where the slug's end is: chamfered; or rounded.

Applicant must **also** elect **one** from the following where the slug is: anodized aluminum; or plastic.

Art Unit: 3641

Applicant must **also** elect **one** from the following where the straight end of the extension spring is: threaded and tied; or bent at 90 degrees.

Applicant must **also** elect **one** from the following where the slug is: equipped with a gas operated sound generator; or is two-piece.

Applicant must **also** elect **one** from the following where the slug: has a diameter larger than the gun bore; or has a diameter slightly less than the gun bore.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement **must include an identification of the species that is elected** consonant with this requirement, **and a listing of all claims readable thereon**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 3641

examiner finds one of the inventions unpatentable over the prior art, the evidence of admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michelle (Shelley) Clement whose telephone number is 571.272.6884. The examiner can normally be reached on Monday thru Thursday 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 571.272.6873. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
